* If the hotel is plotted along the horizontal line next to it's name with a pyramid sign then the low rate for that day is:
 1) higher than the low rates used during **this reporting period** (comparing Weekend to Weekend and Weekday to Weekday) -- and
 2) the "member discount rates" are either closed or within 90% of the low rate for that day. (Not applicable with season change dates.)

This analysis uses Mon, Tue, Wed and Thu as days for Weekday rates and Fri, Sat and Sun as days for Weekend rates.
